Lavneet Sharma

~~Software Engineer~~   ~~Entrepreneur~~   **I Code.**

+91 9999045029   contact@lavneet.com   DOB: 16 Sep'92   Pathankot, Punjab.

Profile

Programmer and co-founder of an Angel funded startup with a keen interest in AI & Cyber Security.

I began coding when I was 13; developed & sold my first software to a local textile company at age 17; started practising reverse engineering and cybersecurity, hacked into an international government website at age 19; started my first company at age 21 (took exit the very next year); took a job in cyber forensics at age 22; co-founded another company at age 23 (raised $1M as seed investment) - took exit at 26; Fast forward 2020: I have this new interest in the field of Deep Learning & AI and I'm out looking for opportunities where I can do something creative in the field of Cyber Forensics using Deep Learning & AI.

Professional Experience

Full Stack Developer @ ScoutIQ
Denver, US (Remote) | Oct 2019 - Present
Job responsibilities include designing, implementing, and developing databases, back end, and front end code to support the efforts of our Amazon scouting app.

Product Owner @ Corouter
Mohali, Punjab | June 2014 - Oct 2019
As a co-founder, I was primarily responsible for Developing Financial Estimates, Manage Product Development, Create Business Plans & Documents, Build & Lead Team. Moreover, I worked closely with the AI team to develop a RNN based model.

Digital Forensics Analyst @ Data64 Cyber
Pune, Maharashtra | Jan 2014 - Apr 2014
Job role involved working with law enforcement agencies, as well as private firms, to retrieve information from computers and other types of data storage devices & use them as evidence in the court of law.

Achievements

1. Technical Reviewer of Learning iOS Forensics (https://books.google.co.in/books?id=mUsZBwAAQBAJ&pg=PP10&dq=lavneet+sharma&hl=en&sa=X&ved=0ahUKEwinxcnu74DpAhVx4zgGHSPqAxsQ6AEIJTAA#v=onepage&q=lavneet%20sharma&f=false)
2. Currently authoring a book on 'Data Structures' with BPB Publications
3. I've been invited to many colleges for Guest Lecture on Cyber Security & Machine Learning. (http://facebook.com/GNAUniversityPhagwara/posts/1206693236194924)
4. Founded a startup & raised $1M back in 2014 (right after college).
5. Secured AIR 13 in AMDOCS CodeMania while in college.

Academics

Course	Institute	Result	Passing Year
B.Tech	Punjab Technical University	75%	2014
XII	CBSE	80%	2010
X	CBSE	85%	2010

Core Competencies

- Full Stack Development using Node.js
- Server Scripting using Python
- Mobile App Development using React Native
- Cyber Forensics (guest lecturer & book reviewer)
- Deep Learning & AI (RNN & Sentiment Analysis)

Code Editor: neoVim with tmux, Visual Studio and IntelliJ.

Other Tools: Netlify, Git, SVN, Docker & Containers.
